January 20, 2018

To Whom It May Concern:

School security and the welfare of our students is a process that is challenging and complex, yet essential in protecting our children. **Mr. Ray Dunn** from Guardian Securities trained Grady ISD security team for two days. I highly recommend his quality training to any school district, business, church, including board members. Mr. Dunn is professional and well-diversified as a firearms instructor and security consultant. His sessions are well-balanced with instructions, videos, discussions, and training.

I have never owned a firearm until now. After his class Firearms 101, I was able to disassemble my gun, clean it, and re-assemble. Ray taught us how to correctly handle and fire a gun and the instruction was delivered with utmost patience, care, and with attitude that "we can do it". Ray stressed all components about safety repetitiously. He has improved our confidence and knowledge in regards to firearms and active shooter situations.

We have adopted school board policy regarding carrying firearms by approved school employees. **I wish I had contacted Ray sooner** while going through this complex process. Mr. Dunn and his staff will go the "extra mile" in assisting your district or organization with security training AND LTC certification training. The laser training is unbelievable and realistic. It will make your heartbeat race and your mind "exhausted" in deciding what to do in a split second. Yet, this training by Ray is essential to place your school in the best position during a possible bad situation.

**NOTE: Your school will handle a crisis at the level of their training or their lack of training.**

**Protect and Defend your Kids!**

Respectfully,

**Leandro Gonzales, Jr., Superintendent**
